Professional Blade Manufacturing

Honchizon manufactures dog and pet clipper blades for grooming brands, distributors, wholesalers and private label customers worldwide.

10+

Years manufacturing experience

50,000+

Blades monthly output

40+

Export countries

3-5 Days

Sample delivery

Compatibility Focus

Designed around professional A5-style grooming systems with product lines for standard, wide, D-series and adjustable blade needs.

OEM Ready

Logo marking, customized packaging, private label support and low MOQ programs help buyers build their own blade range.

Quality Control

Manufacturing and inspection are organized for sharpness, fit, durability and repeatable bulk delivery.

Find the Right Blade System Faster

The catalog is organized by blade system and buyer task, making it easier to source complete product ranges instead of isolated SKUs.

08 A-Series Blades

Core detachable blades for professional dog grooming and A5-compatible clippers.

06 Wide Blades

Wider cutting surface for faster body work and high-volume grooming.

04 Skip Teeth Blades

Skip tooth geometry for bulk removal and rough cutting.

05 D-Series Blades

D-series detachable blades with common finish lengths.

02 Specialty Blades

5-in-1 and narrow blades for adjustable or detail work.

04 Blade Cutters

Replacement top cutters in steel or ceramic options.

03 Clipper Attachments

Snap-on guide combs for standard, wide and 5-in-1 systems.

Blade Selection Guide

Use this page as a quick buyer reference. Exact compatibility should be confirmed by sample testing before bulk private label orders.

OEM / ODM Manufacturing Solutions

Custom clipper blade solutions for grooming brands, distributors and private label customers.

01

Requirement Review

Confirm blade system, sizes, material, finish and target market.

02

Sample & Testing

Prepare samples for fit, sharpness, heat control and packaging review.

03

Logo & Packaging

Apply private label marking, retail packaging or distributor cartons.

04

Bulk Production

Manufacture, inspect and pack according to approved sample standard.

Customization Scope

- Stainless steel, high carbon steel and ceramic cutter options
- OEM logo marking and private label packaging
- Standard, wide, D-series, 5-in-1 and guide comb ranges
- Low MOQ programs for new product line testing
- Fast sample delivery for buyer approval
- Factory-direct communication and quotation support

Ready for Wholesale Pricing?

Send blade sizes, target quantity, material preference and packaging requirements.
